Gaining a Competitive Edge in Packaging Using Simulation and SimApps™

Thursday

Jun 2, 2016

11:00 AM - 12:00 PM EDT

The need to reduce development time and produce optimized products is necessary to remain competitive in the packaging market. By using Simulation and user-friendly SimApps as part of your process, you can reduce the number of tooling and testing iterations, saving on cost and time to market.

Attendees Will Learn:

- The advantages of using Simulation & SimApps in a typical development cycle
- What accuracy can be expected from using Simulation
- How Simulation & Testing work together
- What Tests and Manufacturing Operations can be evaluated using Simulation and SimApps
- How to overcome the challenges of periodic need, material data, computer hardware, and software licensing costs
